

“The POWER of Good Manners” Technical Rider

The following are the "ideal" requirements for a school presentation of "The POWER of Good Manners!". It is understood that all requirements may not be able to be met by schools. We will do our best to accommodate the in-house technical specifications of the school.

STAGE/PERFORMANCE AREA

Stage dimensions (Minimum) 16 feet width x 12 feet wide x 16 feet(+) high

"The POWER of Good Manners!" set includes two free standing 4' x 6' banners.

The stage area needs to be made available to Kenny Ahern, for his uninterrupted use, one(1) hour prior to performance.

The stage area cannot be used by any other event/class once Kenny has begun to set up, until after the final performance and removal of all performance equipment.

The entire stage area must be cleared of all props, equipment and debris.

If a stage is used for the presentation, stage to house steps, a minimum of 3 feet wide, are required stage right and left.

Only authorized school personnel are allowed on stage, load-in through to load-out.

AUDIENCE SEATING

If presentation is presented in a multi-purpose room, all students are to be seated on the floor.

A minimum six(6) foot wide aisle must go down the middle of the seated audience.

SOUND/POWER

Kenny will provide own sound.

One(1) 20 amp outlet is needed within 50 feet of sound equipment.

SUPERVISION

One staff member (minimum) is to be designated as the presentation supervisor and is to be present the entire presentation and held responsible for managing possible unruly student behavior.

AUDIENCE SIZE

The audience size is suggested not to be larger than 200 students; to achieve the best possible outcome with student response and retention to the presentation message.

If you have questions, please contact Kenny Ahern at kennyahern1@mac.com or (608)787-0056
